DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the claimed integrated circuit arrangement or method of making a circuit arrangement, particularly characterized by an electrically insulating insulating region with a capacitor and active component arranged on the same side of an insulating layer of the electrically insulating insulating region, wherein an electrode region of the capacitor and an active region of the component are arranged in a plane which lies parallel to a plane of the insulating layer of the electrically insulating insulating region.

US 6,459,113 B1 shows a capacitor and active component arranged with lower electrode of the capacitor and active layer of the component in a common plane, yet there is no electrically insulating insulating layer where capacitor and active component are "on the same side", rather there is a p-well with junction isolation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 571-272-1969. The examiner can normally be reached on M-F (7:30AM-3:30 PM).
